

CO-CREATE OUR GREEN STORY

You've visited a green destination. **The Green Karst** is following the path of sustainable tourism, as evidenced by entry into the Green Scheme of Slovenian Tourism. Under this national certification scheme, the **Slovenia Green** label is awarded, which promises a green future.

By following the instructions below, you will help us build and keep our destination green for future generations.

PRESERVE NATURE AND LANDSCAPE

- Visit **karst intermittent** lakes and follow the instructions for visiting protected natural parks.
- The Green Karst is an excellent environment for exploring hidden corners. **Stick to the marked footpaths**, as they will always lead you to unforgettable views.
- Discover **nature by bike** and actively spend your holidays.
- Learn about the fragile natural balance that manifests itself in the interdependence of **caves, water and human activity**. Take care of protection of natural diversity.

PROTECT THE ENVIRONMENT AND CLIMATE

- The water is rare and elusive on the Karst, but still drinkable. Fill your bottles and enjoy the freshness of clear water.
- Follow the path of the wonders of nature, but take the waste with you. Collect these separately and reuse them as much as possible.
- Taste local dishes and taste wild food.
- Save your energy.
- Disconnect yourself from electronic devices and enjoy the nature.

RESPECT CULTURE AND TRADITION

- Listen to the stories of local tour guides, learn the attractions of our past and present.
- Shop locally and support local providers of culinary products and arts crafts.
- Visit cultural institutions and unique museums.
- Take part in the traditional events and socialize with locals.
